# About SAM

SAM is a new Saudi Company that provides all kind of technical services and solutions for events.

Our expertise and technical studies are made through a tight collaboration with French Engineers and Technicians in order to provide the proper knowhow for your event.

# SAM Scaffolding

We provide Ring Lock “Layher” system which is the number one technology in the world for temporary structures . Safe, Fast and Easy to install and offers unlimited ways to build any kind of structure in the shortest timeframe possible.

Our designers are here to guide you for the best technical study including all drawings and safety factors.

# SAM Stage

We can provide Scaffolding Platforms with specific floorings, or portable stage floorings according to your needs.

# SAM Lights

Lighting is essential to elevate your event to an international standard .

Our team is here to offer you the best light design adapted to your theme and space,

From mood lighting to theatrical or ceremonial lighting , our Light Designer and Technicians will make sure to provide you the best setup and encoding which will match perfectly your expectations .

# SAM Sound System

We have a variety of cutting edge audio equipment, always in seek of the latest technologies in the market , it is very important for us to stay up to date in terms of technology and experience.

Our Sound Engineer will gladly assist you in order to give you the best study and solution for your event.

# SAM LED Screens

Our visual technology inventory allow us to deliver adapted themes , size and shape according to our clients needs.

P1.9, P2.9, P3.9 Led screens are available for outdoor or indoor events

# SAM EXPRESS

At SAM Logistics we take great pride in providing our national customers turnkey solutions. By partnering with us all of your logistics needs will be under one roof.
