# THE COMPANY PROFILE

Edition Release  
**February 2025**

# An Introduction

## Who We Are

NTG Clarity is digital transformation solutions provider with 30 years of experience in North America & the Middle East. By providing outsourced software development solutions and proprietary software products, we accelerate and simplify the digital journey for our clients in the enterprise telecom, financial, and IT sectors. We help clients scale and stay connected by serving as a long-term technology partner in a rapidly changing and increasingly digital world.

## Our Commitment

Our success in building a team of hundreds of dedicated technology professionals is a result of our four key values that we are committed to promote and uphold.

## Our Vision

Is to make digital transformation accessible worldwide, capitalizing on our deep knowledge and experience in different industries to provide competitive, top-tier products and services

## Our Mission

Enabling clients' Business Excellence and efficiency by architecting and delivering world class portfolios of integrated IT solutions owned by distinguished and highly motivated professionals.

## Our Edge

With our more than 30 years in the digital transformation business, we offer an experienced, cost effective, globally diversified and culturally aware workforce of over 700 professionals.

# Our Services

## OUTSOURCING AND OFFSHORING

### Outsourcing and Offshoring

Increase margins and focus on your business by outsourcing non-core functions like software development, engineering, and operations.

### Digital Transformation

NTG empowers clients to integrate digital technology into all areas of their business. We provide teams of senior developers to update and re-imagine systems along with their web and mobile interfaces.

### Data Migration

NTG has undertaken numerous large-scale migration projects for major finance and telecom companies. Our migration services not only help to move data between systems, but also assess, plan, and execute migration projects end-to-end.

## OUTSOURCING AND OFFSHORING

### Solution Development

We're a team with 30+ years of expertise in developing and deploying effective customized solutions. Our team has experience and credentials in designing applications, websites, and mobile & tablet apps.

### System Integration

NTG has more than 30 years of experience in integrating information systems including designing and building customized architectures or applications and integrating with new or existing hardware.

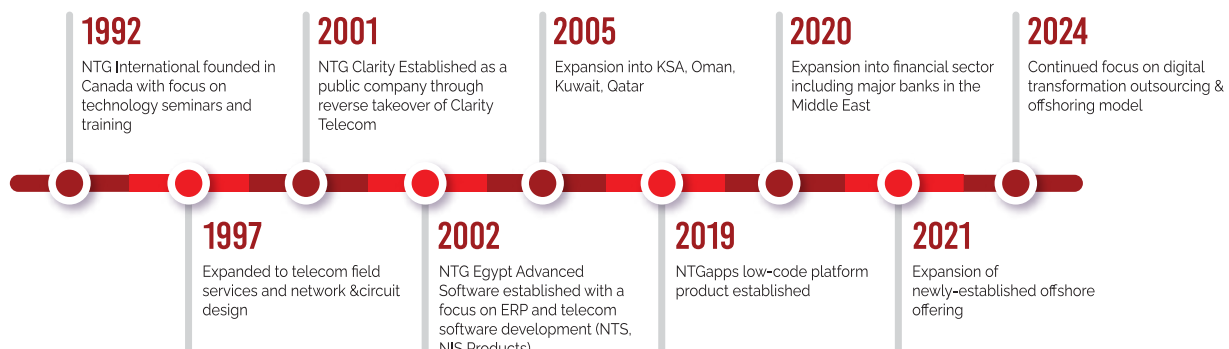

### Testing as a Service (TaaS)

At NTG, we provide Testing as a Service (TaaS) to outsource all types of software testing, letting your developers focus on their roadmap.

### SAP

With a deep focus on SAP's powerful solutions, particularly S4Hana (on-premise & Cloud version) and SAP SuccessFactors, our team of highly skilled professionals is ready to design, implement, and optimize SAP systems across all industries
